Dancing Dots

GOODFEEL

Programme to automatic translation of musical notation into Braille music notation. It takes music notation from popular programmes and converts it into Braille notation. To generate a Braille version of a track you do not need to know Braille music notation! It serves without problems instrumental recordings, vocal solos and recordings dedicated to a whole orchestra.

Producer: **Dancing Dots**

Goodfeel 3.0 893,13 €

actualisation of Goodfeel from version 2.6 to 3.0 262,09 €

actualisation of Goodfeel from version 2.5 or earlier 301,49 €

2. Specialist equipment

2.1 Lecturing devices

2.1.1 Multilecturer

Multilecturer

Easy in handling lecturing device built on a base of PC computer serving to reading information from a scanner, compact discs, the Internet and other sources. It ensures a blind user a free access to information.

MultilektorPlus

Exemplary configuration price: 1 789,55 €

Producer: **Altix**

2.1.2 Multilecturer Sara

Multilecturer Sara

New! This is an integrated lecturing system, easy in handling and living up to expectations of the choosiest clients. SARA is a self reliant device to reading printed materials created especially for blind and visually impaired people. Using multilecturer SARA you can read almost everything: e-mail, important documents, books, booklets and a lot of other materials. SARA downloads documents using the newest technology of identifying prints and then it reads it in a clear, natural sounding voice.

Producer: **Freedom Scientific**

Multilecturer Sara 2 230,45 €

2.2 Braille monitors

2.2.1 Focus

Focus

Focus is the newest Braille monitor similar to Braille devices included in Pac Mate notepad with additional row of keys. So in terms of functionality we can compare it with much more expensive than Focus other Braille monitors. In opinion of some people Focus is functionally better due to using navigation over text or navigation rings menu

renowned from a computer mouse or a Braille keypad thanks to which we can control Jaws as if we were using a normal keypad.

Producer: **Freedom Scientific**

Focus 40 2 788,36 €

Focus 80 5 578,21 €

2.2.2 BrailleMate

BrailleMate

BrailleMate is a mobile Braille monitor produced in two models (with 20 and 40 symbols). It was projected first as a part of Pac Mate notepad but is also works as an independent Braille device. With a computer it is connected through USB port and with PAC Mate by putting into inner dock. Both models having navigation rings, double row of minibuttons, one to calling cursor and the other one to carrying out functions defined by a user have variable Braille hardness. Model with 20 symbols is the smallest Braille monitor which is excellent for travelling and lectures. Despite the fact of implementing in the version with 40 symbols of the newest technology: regulating of Braille hardness, double row of minibuttons, navigation rings it is definitely the cheapest from the hi-tech models with 20 and 40 symbols offered on the market.

Producer: **Freedom Scientific**

Braille Mate 20 1 114,63 €

Braille Mate 40 2 565,07 €

2.3 Braille notebooks

2.3.1 Series PAC Mate 400

Series PAC Mate 400

It is the first in the world device enabling the visually disabled work with programmes of Pocket PC packet. Thanks to screen reading Jaws module the blind can use various applications and is not limited to a few as in other notebooks. It speaks Polish and English. There are available speaking notebooks together with Braille monitors: with 20 symbols – PACMate 420 or 40 symbols – PACMate 440 or without a monitor – PACMate 400.

Producer: **Freedom Scientific**

Pac Mate QX400, BX400 1 966,87 €

Pac Mate QX420, BX420 2 886,27 €

Pac Mate QX440, BX440 4 068,36 €

BlueTooth card on Compact Flash 164,18 €

Ethernet card on Compact Flash 164,18 €

WiFi card on Compact Flash 98,51 €

2.5 Braille printers

2.5.1 ViewPlus Pro Gen II

ViewPlus Pro Gen II

Professional, efficient Braille printer View Plus prints both convex graphics in a high resolution and Braille text. By using additional module you can also print blackprint notation on the same page.

Producer **ViewPlus**

View Plus Pro 7 364,48 €
Pro Ink – additional blackprint module 3 017,61 €

2.5.2 ViewPlus Max

ViewPlus Max

The best and the most versatile View Plus office printer. If you do not want to pay for a machine created actually to efficient „publishing” work which is View Plus Pro printer and in the same time you care a comfortable Braille office printer which will still enable you to handle with big formats of paper and impressive speed, universal View Plus Max will take the challenge with ease. Paper type: zig-zag folded paper (length to 50 inches) or single paper sheet (sheet feeder for 1 sheet)

Producer: **ViewPlus**
ViewPlus Max 4 528,06 €

2.5.3 ViewPlus Cub

ViewPlus Cub

Very good Braille quality and speed are strengths of this small desk-printer View Plus Cub. It operates smaller paper size than models Pro and Max (widthness from 4 to 9.5 inches), but it still enables quiet work and a high resolution convex graphics – thanks to Tiger technology.

Producer: **ViewPlus**
ViewPlus Cub 3 772,84 €

2.5.4 ViewPlus Cub jr.

ViewPlus Cub jr.

For all who have reserved for a Braille printer a meagre budget. View Plus Cub jr. is the most compact and affordable solution keeping all strengths of Tiger technology. View Plus Cub jr. is quiet and ensures high resolution print.

Producer: **ViewPlus**
ViewPlus Cub jr. 3 017,16 €

2.5.5 ViewPlus Emprint SpotDot

ViewPlus Emprint SpotDot

View Plus Emprint SpotDot is a colourprint and blackprint Braille printer in one! There is no other such device in

the world! It prints on the same page both Braille and blackprint, added software enables to format Braille directly from Word or Excel enabling to generate convex graphics.

Producer: **ViewPlus**
ViewPlus Emprint SpotDot 5 283,28 €

2.5.6 Index Everest

Index Everest

Everest is one of the most popular Braille printers. It enables duplex printing on an ordinary paper. It is equipped with screen reading steering panel.

Producer: **Index Braille**
Printer Everest 13199 PLN
Everes Acoustic Hood 2783 PLN

2.5.7 Index 4x4 Pro

Index 4x4 Pro

Index 4x4 Pro is a comfortable printer printing 4 A4 format pages on a A3 format sheet. It makes printout up in a form of Braille volume with a vertical row of holes in the middle thanks to which sewing a volume up is banal.

Producer: **Index Braille**
Printer Index 4x4 4 683,88 €
Stapler 401,79 €
4x4 Acoustic Cabinet 1 222,99 €

2.5.8 Index Basic-D

Index Basic-D

Basic-D is a compact device printing Braille text (duplex) and convex graphics. To printing ordinary paper with perforation is used.

Producer: **Index Braille**
Basic-D 2 566,87 €

2.5.9 Index 4 Waves Pro

Index 4 Waves Pro

Efficient and reliable Braille printer for publishing applications. Printing speed: 1000 PPH (1000 pages an hour). It is assembled from 4 identical printing modules BASIC–D, thanks to what, even in case of damaging (or removing to conservation) one of them it is still possible to print – 4 Waves Pro will adapt to situation and use three, two or even one module (attention: full speed will be achieved only by using all 4 modules). Together with printer there is delivered 5 modules as a service reserve. To printing ordinary paper with perforation is used.

Producer: **Index Braille**

Index 4 Waves Pro 24 561,19 €

2.5.10 Paper to Braille printers

Paper to Braille printers

Paper of increased basis weight specially to application in Braille printers. Some printers (Index Everest, Index 4x4, ViewPlus Emprint) use Braille paper cut into sheets ex. A3, A4, for others (Index Basic–D, Index 4 Waves Pro, ViewPlus Pro, Max, Cub, Cub jr) ordinary paper with perforation is suitable.

Producer:

paper A4 (1000 sheets) 100 PLN

paper A3 (1000 sheets) 200 PLN

ordinary paper with perforation (1 box = 800 sheets) 79 PLN

2.6 Zooms and magnifying glasses

2.6.6 MonoMouse, ColorMouse

MonoMouse, ColorMouse

ATTENTION! PROMOTION! The cheapest zoom on the market! You will nowhere find it cheaper! Zooms MonoMouse, ColorMouse are dedicated to users who just want to read print which is too small to read it without help!

Producer: **Bierley**

Mono Mouse 158,21 €

Mono Mouse RM 320,60 €

Mono Mouse USB 445,67 €

Color Mouse 320,60 €

Color Mouse RM 460,90 €

Color Mouse USB 598,81 €

2.6.9 Prisma

Prisma

It is a colour TV zoom. As far as in a TV a camera is separate and bears resemblance to computer mouse, in this case a camera is put on a top of on arm placed over a small table. Zoom is regulated through change of inclination of this arm and is 4x–30x on 14" TV.

Producer: **Ash Technologies**
Prisma 908,36 €
VGA Converter to PC 202,09 €

2.6.10 Shoppa

Shoppa

Interesting portable zoom with a big 7-inches screen and a camera on a resilient duct. Thanks to the fact that the camera is not fixed permanently to a device's casing you may easily watch magnified picture of an object placed high or just in a place you need to reach. In this way a screen may always be in front of our eyes while a camera in our hand may "watch" closely – for instance – a table standing on the highest shelf in a shop.

Producer: **Bierley**
Shoppa 528,66 €

2.7 Braille typing machines

2.7.1 Eurotype E

Eurotype E

Electric typing machine – not big and comfortable.

Producer: **Blista Brailletec GmbH**
Eurotype /E 2 227,76 €
Plastic suitcase to Eurotype E 218,21 €

2.7.2 Elotype 4E

Elotype 4E

Electric typing machine with a function of computer printer. It can serve as a typing machine with a memory for a typed text, be computer printer after connecting it with a serial cable, print convex drawings, work in a network with other machines cooperating with central computer. Such organised network is a solution replacing a board in a classroom.

Producer: **Blista Brailletec GmbH**
Elotype 4E 2 674,33 €
Plastic suitcase to Elotype 4E 218,21 €
Braille Graf 2 441,49 €

2.7.3 Perkins

Perkins

Classic mechanical typing machine PERKINS is valued for its massive casing and reliability. It is heavier and bigger than Slovakian machines TatraPoint. PERKINS is a pioneer among typing machines for the blind. The first copy was produced in 1951 since that time there were sold over 300 000 of these machines in over 170 countries. Our company offers you typing machines PERKINS at the cheapest price in Poland. Additionally there is a possibility for private persons and educational institutions to apply for even lower special price.

Producer:

Perkins – special price 373,73 €

Perkins – commercial price 587,76 €

2.7.4 Perkins – electric model

Perkins – electric model

Electric version of classic typing machine PERKINS valued for its massive casing and reliability. PERKINS is a pioneer among typing machines for the blind. The first copy was produced in 1951 since that time there were sold over 300 000 of these machines in over 170 countries. Our company offers you typing machines PERKINS at the cheapest price in Poland. Additionally there is a possibility for private persons and educational institutions to apply for even lower special price.

Producer:

Perkins – electric model – special price 522,09 €

2.8 Equipment for the physically disabled

2.8.1 Big Keys LX

Big Keys LX

Enlarged keypad available in a black-and-white or colour version, with small or big letters, in an alphabetical or traditional arrangement QWERTY. Especially recommended for the visually impaired and people with an upper limb paresis.

Producer: **Keytools**

Big Keys LX 178,51 €

overlay for keypad Big Keys LX 83,28 €

2.8.2 Enlarged computer mouse Big Track

Enlarged computer mouse Big Track

Enlarged Track Ball – inverted enlarged computer mouse.

Producer: **Keytools**
Enlarged computer mouse Big Track 96,12 €

2.8.3 Smart Nav

Smart Nav

Smart Nav – it is a computer mouse for people who cannot use a mouse controlled with a hand. Thanks to Smart Nav a mouse is controlled by head moves. In AT version you can also use a virtual keypad.

Producer:
Smart Nav 319,70 €
Smart Nav AT 460,90 €

2.8.4 Maltron keypad enabling to write with one finger or mouth

Maltron keypad enabling to write with one finger or mouth

The keypad's construction enables to write with a need of just minimal moves of a finger or a stick.

Producer: **P.C.D. MALTRON Ltd**
Maltron keypad enabling to write with one finger or mouth 449,25 €

2.8.5 IntelliKeys

IntelliKeys

Additional computer keypad with a possibility of using a very varied line-up, size and look of keys (it may also be pictures) – it is enough to change an overlay with keys drawn in one layout for another. In a set there are a few overlays – keypads projected by a producer. There is a possibility of projecting by a user an endless number of keypads with an additional programme Overlay Maker.

Producer:
Keypad Intellikeys 422,39 €
Programme Overlay Marker 114,33 €

2.8.6 Keypad Guarded

Keypad Guarded

Computer keypad equipped with an overlay preventing pressing a few keys at the same time.

Producer: **Keytools**
Keypad Guarded 88,66 €

2.8.7 One-handed keypad Maltron

One-handed keypad Maltron

It was projected for people operating a computer with one hand. Its shape and keypads layout has been carefully thought out and projected in such a way to minimize hand's moves while writing and ensure the most comfortable work.

Producer: **P.C.D. MALTRON Ltd**
One-handed keypad Maltron 506,87 €

2.9 Convex graphics for the blind

2.9.1 Dot View 1

Dot View 1

Dot View is an innovative mobile tactile device able to change graphic information from a computer's screen for touchable pictures.

This device can show all types of pictures, text formatting like in Braille and thanks to high graphics frequency even animated graphics. There are also available such operations like rewinding, magnifying and reduction.

Producer:
Dot View 1 6 947,16 €

2.9.2 Dot View 2

Dot View 2

Dot View is an innovative mobile tactile device able to change graphic information from a computer's screen for touchable pictures.

This device can show all types of pictures, text formatting like in Braille and thanks to high graphics frequency even animated graphics. There are also available such operations like rewinding, magnifying and reduction.

Producer:
Dot View 2 9 946,27 €

2.9.3 DraftsMan

DraftsMan

DraftsMan is a big tactile drawing board for the blind and the visually impaired and for their sighted teachers,

parents and friends. Thanks to applying a special surface drawn lines „grow” thanks to what they become perceptible for blind people.

Producer: **CareTec**

DraftsMan Standard 106,57 €

DraftsMan Pro 16,12 €

Drawing sheets for Standard version (100 items) 13,13 €

Drawing sheets for version Pro (100 items) 25,37 €

2.9.4 Zy-Fuse

Zy-Fuse

ZyFuse Tactile Image Enhancer is a heater to protruding graphics on sheets of special swelling paper. In comparison with other devices of this type Zy-Fuse carries out its task more precisely and in a shorter time.

Producer: **Zychem Ltd**

Zy-Fuse heater 917,61 €

Paper to Zy-Fuse A4 – 200 items 121,79 €

Paper to Zy-Fuse A3 – 100 items 121,79 €

Thick marker 5,07 €

Thin marker 5,07 €

2.9.5 IVEO

IVEO

Device screen reading convex graphics. Create speaking diagrams, charts or maps so easily as in the easiest programme to drawing and then let them speak! Watch graphics with a sense of touch and hearing!

Producer:

IVEO – full set 620,60 €

IVEO PRO – full set 850,45 €

IVEO Creator 390,75 €

IVEO Creator PRO 587,76 €

2.9.6 TIE (Tactile Image Enhancer)

TIE (Tactile Image Enhancer)

Tactile Image Enhancer is a heater to protruding text and graphics on sheets of special swelling paper.

Producer: **Repro-Tronics**

TIE 919,40 €

TIE Junior 390,75 €

Paper to TIE – Flexi Paper A4 100 items 65,67 €

Paper to TIE – Flexi Paper A3 100 items 131,34 €

2.9.7 Thermo Pen

Thermo Pen

Thermo Pen is an excellent addition to Tactile Image Enhancer heater of Repro–Tronics Company. With its shape the device resembles a pen. Thanks to special heating ending it enables to create convex drawings on swelling paper.

Producer: **Repro–Tronics**

Thermo Pen 97,91 €

3. Accessories

3.1 Daily usage devices

3.1.1 Wooffy & Wooffy T

Wooffy & Wooffy T

Wooffy is an excellent not big device enabling to control how the battery is charged. It enables to test all conventional batteries 1.5 V and 9 V. There are two models: Wooffy and Wooffy T.

Producer: **CareTec**

Wooffy 45,67 €

Wooffy T 65,97 €

3.1.2 TURBO 4 & 6

TURBO 4 & 6

New sound charger to rechargeable batteries. There are available two models – TURBO 4 and TURBO 6. Diode display shows a process of charging of each battery. After pressing a button the device reads in a clear voice how the battery is charged. It is possible to set an automatic confirmation of the end of charging process.

Producer: **CareTec**

Turbo 4 100,60 €

Turbo 6 131,04 €

3.1.3 DymoQueen

DymoQueen

Thanks to DymoQueen you will do in an easy and fast way a Braille label enabling to identify objects of similar shape as for instance cassettes, containers, bottles. DymoQueen also enables to create tactile dots (known as Bump Dots) in order to mark a location of a place on various objects.

Producer: **CareTec**

DymoQueen 25,37 €
Tape to DymoQueen 2,99 €

3.1.4 Speaking bathroom weight scale

Speaking bathroom weight scale

It weighs up to 130 kg with an accuracy to tenth part of kilogram.

Producer: CareTec

Speaking bathroom weight scale 137,01 €

3.1.5 Speaking dietetic weight scale

Speaking dietetic weight scale

It is a precise dietetic scale which weighs with an accuracy to 1 gram up to 2 kg.

Producer: CareTec

Speaking dietetic weight scale 126,87 €

3.1.6 Speaking kitchen weight scale

Speaking kitchen weight scale

It weighs up to 5 kg and like all our weight scales it is excellent and very aesthetic.

Producer: CareTec

Speaking kitchen weight scale 116,72 €

3.1.7 Liquid level sensor

Liquid level sensor

It is an excellent liquid level sensor of CareTec company.

Producer: CareTec

Liquid level sensor 9,25 €

3.1.8 Speaking measuring tape VoxTape

Speaking measuring tape VoxTape

Polish speaking metal measuring type with automatic rolling. It is dedicated for house work. With its help you can make a measurement with accuracy to 1 millimetre.

Producer: **CareTec**

Speaking measuring tape VoxTape 100,60 €

3.1.10 SweetHeart

SweetHeart

it is a speaking manometer telling not only a pressure but pulse too. It is characterized by unusually big display. It has a built-in memory enabling to record even 300 measurement results for each of three different users.

Producer: **CareTec**

Manometer SweetHeart 162,39 €

Manometer SweetHeart PC 253,73 €

3.1.11 Color Test Standard

Color Test Standard

It is a speaking colour identifier indispensable especially for the blind living alone. It distinguishes colours with unusual precision.

Producer: **CareTec**

Color Test Standard 486,27 €

3.1.12 Color Test Deluxe

Color Test Deluxe

Colour tester version able to identify EURO banknotes.

Producer: **CareTec**

Color Test Deluxe 542,99 €

3.1.13 Color Test Memo

Color Test Memo

Colour tester with a function of recording short voice messages.

Producer: **CareTec**

Color Test Memo 603,88 €

3.1.14 Sherlock

Sherlock

A device enabling to record voice notes to bar codes. In an easy and comfortable way we can mark any object and record through the built-in microphone our voice comment. Remembered in this way bar codes are recognised by Sherlock (an adequate voice note is replayed).

Producer: **CareTec**

Sherlock 892 PLN

Self-adhesive label to Sherlock (1 item) 0,90 €

Plastic pendant to Sherlock (1 item) 2,09 €

3.1.15 LumiTest

LumiTest

It is a sound light detector. It has a shape of a pen ended with a light sensor. It generates a high sound if it marks a light source and a very low sound if not. It reacts so precisely that you can check with it not only if the light is on or where a window is but also enables to find written spaces on a sheet of paper.

Producer: **CareTec**

LumiTest 49,85 €

3.1.16 Toni

Toni

It is an additional device to colour tester testing a content of saccharide and acetone in urine. It may serve also to checking colours of small electric cords.

Producer: **CareTec**

Toni 35,52 €
